**Subject:** RE: Morrill Facade Repairs UMA08-35 - Schedule 7/2/08  
**Attachments:** Morrill Facade repairs schedule map 7-2 job meeting.pdf; Updated Schedule on Facade Project

Attached is a work schedule look ahead for the masonry repairs at Morrill 1 and Morrill 4N. Work to remove aging marble panels from window assemblies continues at Morrill 2 and 3. Please note that the sequence for removing marble panels has changed. Lastly, the schedule indicates that the contractor will start to install the new composite panels at the west facade of Morrill 2 starting next week. The new panels will replace the old replacement plywood panels as well as the current removed marble panels to provide an improved weather-resistant, durable finish.

I have also included Sally Ives' message sent yesterday which states some differing dates than found in the attached map. I updated the map based on today's operations and the the forecasted speed to remove the remaining panels.

"This work of is shown for estimated time windows and is subject to unforeseen job conditions which may affect periodic changes. A schedule update will be issued as a result of next week's job meeting."

Happy Fourth everyone.

**Subject:** RE: Morrill Facade Repairs UMA08-35 - Schedule

We reviewed the schedule updated at last week's 6/18 job meeting and saw no reason to update or look further into the future. Therefore, no changes have been made. beyond the
